Within the past ten days there has been two alarms of fire in the business portion of the city, and luckily were both put out without damage. The first was in the Texas restaurant, caused by a fire burning out, and the other was at Brown's drug store, last night, caused by a large swinging oil lamp falling to the floor. The danger in this last one was very great, but a prompt effort put it out.

The danger of fire in the two blocks mentioned is very great, and would carry great destruction to valuable property, and some provision should be made for protection.

### A WONDERFULL CURE. OF DIARRHOEA

A PROMINENT VIRGINIA EDITOR Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL.

From the Times, Middleburg, Va.

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy I decided to try it. After taking a few doses I was entirely well of that trouble and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by Palace Drug store.

A writer in a European temperance journal calls attention to the value of fruit as an antidote to the craving for liquor. He says: "In Germany, a nation greatly in advance of other countries in matters relating to hygiene, alcoholic disease has been successfully coped with by the adoption of pure diet and natural curative agencies. I have said that the use of fresh fruit is an antidote for the drink crave, and this is true. I have met men who have told me that fruit has often taken away the craving for drink. It may be asked, how can fruit and pure diet do all this? The explanation is simple. Fruit may be called nature's medicine. Every apple, every orange, every plum and every grape is a bottle of medicine. An orange is three parts water—distilled in nature's laboratory—but this water is rich in peculiar fruit acids medicinally balanced, which are specially soothing to the throat of the drunkard, and soothing to the diseased state of his stomach. An apple or an orange eaten when the desire for liquor arises would generally take away that desire, and every victory would make less strong each recurring temptation. The function of fresh fruits and succulent vegetables is not so much to provide solid nourishment as to supply the needful acids and salines for the purification of the blood. Once get the blood pure, every time its pure nutrient stream bathes the several tissues of the body, it will bring away some impurity, and leave behind an atom of healthy tissue, until in time the drunkard shall stand up purified in his right mind."
